Chandrakant M. Parekh
President

To,
The Secretary- Environment,
DNH and DD Administration,
Daman.

Subject: Deemed extension of consent to establish
under the Environment Act, 1986.

Rajan Aggarwal
Vice President

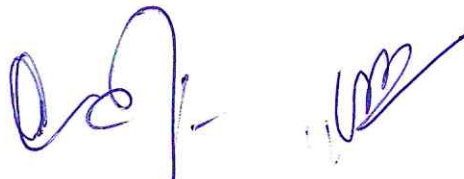

Sir,

It is respectfully submitted that due to prevailing pandemic situation in the country and unprecedented down fall in the Indian economy, the industries could not commence the work on new establishment or on expansion for which consent to establish was obtained from the Pollution Control Committee, Daman.

K. T. Parmar
General Secretary

The failure to complete the installation within the stipulated period is not attributable to the industry and therefore asking them to renew will be putting salt to the injury. It is the time when state should come forward with some comfort to the industry so that it builds confidence to survive. All of us have seen that the confidence in the industry is a basic fiber and also a back bone to everything, whethergovernance, social peace and order or sustainability of the development.

In this backdrop, we request that all the consents to establish, operate which expired in or after April-20 and schedule to expire in next one year should be extended with deeming effect at least up to March-23.

Chandrakant M. Parekh
President

We are sure, DNH and DD Administration will be considerate to take all necessary steps for survival of the industries and also whatever new investment available to attract in our UT.

Thanking you.

Yours' faithfully,

For Federation of Industries Association, Silvassa

Chandrakant M. Parekh

President,

Federation of Industries Associations, Silvassa and
Silvassa Industries and Manufacturers Association,
Silvassa.
