Dear Members of SIA, DNH IA and SIMA,

The by-poll of DNH parliament constituency is scheduled on 30.10.21. As an industrial establishment, both, the establishment and its employees have special duties to perform and discharge.

We are industries and therefore we must respect all political ideologies and institutions.

In view of ensuing festive season, we must take take precautions to ensure that employees / workers do not leave for their native places before polling. We need to educate them to stay and must vote.

List of employees and workers who are voters in the coming poll should be prepared to motivate them cast their pious vote. Contractors / sub-contractors and their supervisors should be asked to do similar exercise.

We should be able to tell and guide them about the location of their designated polling booth. Help in this respect can be taken from Federation's Enabling Room.

Please send the data to Federation's Enabling Room to monitor data about polling and to help member industries.

In case, any help or support is required from this Federation, please inform the Enabling Room immediately.

Narendra Trivedi, General Secretary, FIA
