# OIDC WILL BE NODAL AGENCY FOR MSTC FOR ALL E-AUCTIONS OF VARIOUS BUSINESS UNITS

# ADVANTAGES OF E-AUCTION ....

Bidders need not be present physically at the place of auction; hence chances of cartel formation are negligible.

Bidders can search and bid for lots of their choice without being influenced by external factors.

Extensive Elaborate Search options available for Bidders

Bidders get the opportunity of multiple upward revision of their bids.

Bidders can bid from their offices / homes / cyber cafe and need not travel to any place --- thus there is saving of time and money.

# ADVANTAGES OF E-AUCTION ....

All these factors result into realisation of higher prices for the sellers.

The process of e-Auction is fully automated and no human intervention is there. Thus, the system gives equal and fair opportunity to all the bidders and is therefore a very transparent system.

e-Auction is a very fast mode of sale and more than one e-Auction can run simultaneously. Thus, it can handle sale of more items in less time.

Cartel Formation by the buyers is avoided as multiple interested Buyers from multiple states may participate in the e-Auction

# WHY MSTC FOR E-AUCTIONS
