**Dear Sir/ Madam,**

We are pleased to invite you to an Online Seminar organized by IMC Chamber of Commerce and Industry in association with BSE.

**Topic : “Commodity Gold: Options in Goods Contract”**

**Day and Date: Wednesday, July 14, 2021**

**Time: 4:00 p.m. to 5:30 p.m.**

**Online Platform: Zoom**

The glittering gold is investors' delight. Investment in gold has brought remarkable returns to investors. Gold as an investment asset has often outperformed other asset classes. India is a large importer and consumer of gold. The allure of the yellow metal for jewelry and for investment is undiminished. Gold investment is an excellent portfolio-diversifier and should be an integral part of everyone's investment strategy, say experts.

By their very nature, commodity markets are volatile, and the gold market is no exception. It is necessary to manage the price risks through hedging which is an insurance against adverse price movement. Options trading provides an effective form of insurance against adverse price movement. Investors and those with exposure to the physical commodity can benefit from using Options contracts.

To advance the idea of using Options contracts for price risk management as well as for investment, IMC Chamber of Commerce and Industry along with BSE has organised an investor awareness program. The program seeks to educate the investors and other users of the Options contract about the dynamics of the bullion market so that buying / selling / trading decisions are well informed, scientific and cost-effective.
