

Dear Sir/Madam,

Getting Things Done - China's X-Factor: How to Manage Change

IMC Chamber of Commerce and Industry and Indo-Vietnamese Chamber of Commerce & Industry bring to you **Hugh Peyman**, a financial journalist, a development economist, a research director and author to speak on:

Getting Things Done - China's X-Factor: How to Manage Change

When: Friday, November 29, 2019 at 5:30 p.m.

Where: Walchand Hirachand Hall, 4th floor, IMC, Churchgate

20 Essential Ideas, in three parts, explain why China's economy has broken all records for economic growth and speed. This is the conclusion of Shanghai-based investment research director and author Hugh Peyman who has lived in Shanghai for almost 18 years, having first visited China in 1978.

Kicking the tyres of China's dynamic private sector and knowing senior officials enabled him to discover what has made China's economy work over the last four decades. *Process* not just policy, the *how* not just the *what* lie at the heart of China's X-Factor: all with their roots in traditional Chinese philosophy. This is a framework not only for government but more importantly for firms, family and individuals to manage life, complexity, opportunity and danger. Can these same ideas be adapted for India?

That is the question Oxford Politics, Philosophy and Economics graduate Hugh Peyman, who has lived for over four decades in Asia, will consider on Friday November 29 at 5.30pm at IMC.

Hugh authored ***China's Change: the Greatest Show on Earth*** in 2018. Its Chinese edition is already a best seller and a single posting in China generated over one million social media views within two days. **As BBC Director General Lord Tony Hall says, "Hugh tells China's story in a way never done before."**

We invite you to participate in what promises to be very interesting and enriching evening. To participate, please send your RSVP to Ms. Lucy Thomas at lucy.thomas@imcnet.org
