WELCOME MESSAGE

Looking to the importance and challenges in chemical treatment in oil and gas and other industries and for making the industries more productive, cost effective and environment protective, " International Conference & Exhibition on Oil Field Chemicals and Treatment in Oil & Gas industries" is being organized by Confergo at Mumbai between 18-19th July 2019. Experts, engineers and chemists from upstream, midstream and downstream of oil & gas industries, petrochemicals, fertilizers, power plants and others, professors, research scholars, analysts from technical institutes and colleges, are cordially invited to participate and add value to this conference with their enriched knowledge and experience. This platform shall be a showcase to exhibit their thoughts, innovation and vision for brighter tomorrow in the field of chemical treatment particularly in oil and gas industries.

Mr. Shakti Kumar Pandey

Convenor & Chief of Technical Committee (OFCTC 2019)

Former Executive Director, ONGC, Mumbai

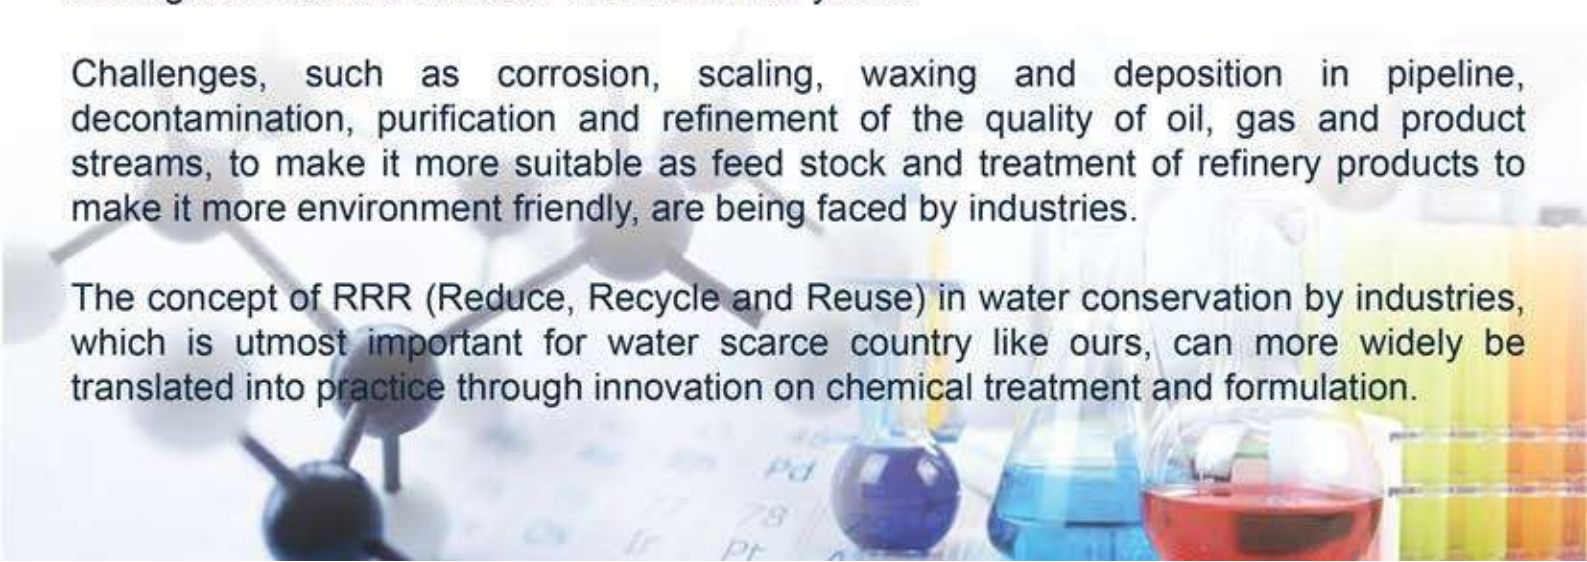

THEME: "IMPROVING THE PRODUCTIVITY, COST EFFECTIVITY AND ENVIRONMENT PROTECTIVITY THROUGH CHEMICAL TREATMENT IN OIL & GAS INDUSTRIES"

Chemical treatment to oil and gas, starting from production level to final consumption, plays very important role in oil and gas industries. The complete chain of the hydrocarbon stream, including upstream, midstream and downstream need chemical treatment to make the industries more productive, cost effective and environment protective.

Chemicals being used particularly in E&P industries have serious implications towards environmental both at surface and sub surface level and therefore industries face challenges to make it environment friendly under new strict regulations. It has been reported that the WORLD market of oil field chemicals alone is projected to grow at an average annual rate of about 4% in next five years.

Challenges, such as corrosion, scaling, waxing and deposition in pipeline, decontamination, purification and refinement of the quality of oil, gas and product streams, to make it more suitable as feed stock and treatment of refinery products to make it more environment friendly, are being faced by industries.

The concept of RRR (Reduce, Recycle and Reuse) in water conservation by industries, which is utmost important for water scarce country like ours, can more widely be translated into practice through innovation on chemical treatment and formulation.

TOPICS TO BE COVERED

The topics of the paper for presentation in the conference, mentioned below, are indicatives and any other topics related to chemical treatment/ additives in oil & gas industries, focussed to above objectives shall be accepted subjected to the permission of chair.

- ◆ Oil field chemicals used in E&P industries, Effectivity, Environmental impact and mitigation.
- ◆ The quality of oil and gas produced and required treatment for improving feed stock quality.
- ◆ De-emulsification of oil and advancement in treatment technology to make it more cost effective.
- ◆ Flow Assurance through chemical treatment/ additives in oil and gas transportation.
- ◆ Cross Country Transportation of oil & gas and required treatment for pipeline integrity and environmental protection.
- ◆ Improvement in quality of crude feed stock to refinery for reducing downtime and improving productivity.
- ◆ Mitigation the impact of chlorides and sulphides in oil as well as gas industries.
- ◆ Treatment of gas for sweetening and dehydration through absorbents and adsorbents to make it suitable for transportation and consumption.
- ◆ Chemical treatment of effluents from oil & gas industries for recycling and safe disposal.
- ◆ Corrosion Inhibitor and Biocide treatment in cooling and boiler feed water, its effectivity both in terms of cost and quality.
- ◆ Chemical Treatment of cooling water in oil & gas industries for mitigating the contamination arising due to leakage of hydrocarbon, increasing COC and reducing scaling.
- ◆ Environmental impact of chemicals used in oil & gas industries and mitigation through safe disposal for environmental protection.
- ◆ Advancement in chemical treatment technology in oil and gas industries for making it more effective and environmental protective.
- ◆ Technological advancement in improving the quality of fuel for reducing the environmental impact through processing and chemical treatment.
- ◆ Improving the quality of feed stock to oil & gas industries for improving quality of product, productivity and environmental protection.

INDUSTRIES SERVED

Asset Integrity Professionals, Chemical Manufacturers, Chemical Traders, Chemical Dosing Laboratory Corrosion Specialist, Designers, Engineers, Professionals from Fertilizer Industry, Filtration, Microbiologists, Oil & Gas Production, Petrochemicals, Pipeline Managers and Operators, Process engineers, Production chemist, Professionals from Refineries , Software specialists for Oil & Gas field Industry, Testing specialists, Universities & Academic institutes , Vendors and Suppliers, Water Injection Chemicals, Water Treatment Professionals.

ABSTRACT SUBMISSION

Chemists, engineers, scientists, testing specialists, chemical manufacturers and all other relevant professionals involved in oil field chemical, treatment & application are invited for technical paper presentation. Abstracts will be evaluated based on relevance, uniqueness, originality, technical content, and clarity. Browse the list of featured topics. Interested professionals are requested to submit their abstract not exceeding 300 - 500 words as per the guidelines through Email at technical@oilfieldchemical.org.in

GUIDELINES

- Font Should be "Times New Roman"
- Abstracts should be prepared in English
- The abstract must be submitted in *.doc/ *.docx format only.
- The abstract should comprise of a title, names and affiliation of authors along with email address and the text.
- The abstract size is limited to one A4 page (including title, authors, affiliations, body text, keywords, etc.) and 500 words at most.

DELEGATE/ PARTICIPATION FEE

Delegate Rs. 12,000/- (USD 250)

Speaker Rs. 10,000/- (USD 200)

Educational Institutes Rs. 5,000/- (USD 100)

Student/ Spouses Rs. 4,000/- (USD 80)

(18% GST will be applicable as extra)

Corporate discount

10% additional discount if 3 & above nos. of delegates participated from same organization.

Group Discount

25% additional discount if 10 & above nos. of delegates participated from same organization.

KEY DEADLINES FOR PAPER SUBMISSION

Abstract Submission:	25.05.19
Full Paper Submission:	31.05.19
Presentation Submission:	15.06.19

TOP REASONS TO ATTEND

UNDERSTAND the chemist's view, and forge strategic relationships with the oilfield chemistry community.

ENHANCE your knowledge with thought-provoking presentations and case studies that demonstrate ways to optimize oil and gas operations.

INCREASE your network and connect with renowned E&P industry leaders.

EXPLORE the exhibition and meet with providers of innovative products and services that support oilfield chemicals & treatment requirements.

EXHIBITION AND BRANDING OPPORTUNITY

EXHIBIT, SPONSOR, ADVERTISE

Highlight your company's products and services to key E&P leaders and decision makers.

Sponsor and advertise at this event to promote your brand and enhance your visibility.

We are offering spaces for booth as exhibition opportunity in the conference. We will have free space for the lead sponsors and limited number of built up booths
