

**CII-CESD Certified Training on Design & Implementation of Sustainability  
Management Framework as per ISO 26000 : 2010**  
29-30 April 2015 : Bengaluru

Introduction	Objectives of the Training
<p>These days most of the organizations are reporting their sustainability performance. Moving ahead there is a need to have internal processes and systems to manage the sustainability performance.</p> <p>Designing and implementing Sustainability Management Framework (SMF) can help organizations align internal processes and systems and enable them to achieve their sustainability goals. One of the ways to design and implement SMF is through ISO 26000:2010, an International Standard on Social Responsibility.</p> <p>The CII-ITC Centre of Excellence for Sustainable Development (CII-CESD) has developed a training program on Design &amp; Implementation of SMF as per ISO 26000. The training will familiarize the participants with the conceptual and practical guidance ISO 26000 provides to organizations for identifying the material issues and implementing policies and practices to address the same.</p>	<p>The main objectives of the training are to:</p> <ul style="list-style-type: none"> <li>• Familiarize the participants with core subjects and issues organizations can focus on while developing SMF</li> <li>• Provide an understanding of how ISO 26000 can be used as a tool to design and implement SMF</li> </ul>
	Benefits of SMF
<p><b>Training Coverage</b></p> <ul style="list-style-type: none"> <li>• Understanding social responsibility principles</li> <li>• Core subjects and issues for organizations</li> <li>• Identifying the material issues through stakeholder engagement</li> <li>• Designing and implementing sustainability management framework</li> </ul>	<ul style="list-style-type: none"> <li>• Institutionalizes sustainability governance mechanism</li> <li>• Assigns responsibility and accountability for managing sustainability related issues</li> <li>• Enables continual improvement of social and environmental performance</li> <li>• Formalizes process of stakeholder engagement, grievance resolution and risk mitigation</li> <li>• Improves relations with investors, employees, community, regulatory authorities and other stakeholders</li> </ul>
	Who Should Participate
	<p>SMF can be implemented by large and small organizations in the private, public and non-profit sectors. All core subjects mentioned in ISO 26000 are relevant to every organization, while all the issues might not be relevant. Therefore the programme targets all organizations interested in integrating sustainability into their business operations and enhancing their social and environmental responsibility as well as consultants and auditors working in this field.</p>

<ul style="list-style-type: none"> <li>✓ Organizational Governance</li> <li>✓ Policies and practices</li> <li>✓ Human Resource Management</li> <li>✓ Ethics, transparency &amp; stakeholder engagement</li> <li>✓ Monitoring, measuring, reporting and communicating sustainability performance</li> </ul>
