

“Establishment of Modem”

Dear Members of Constituent Associations,

Federation brings to your notice that 29th June 2018, a suggestion came of to expedite the process of taking the digital readings through remote sense. You're aware it is possible only when consumers have already installed the modems, it was a positive response that large no. of consumers have already installed the modems, the whole process has been held up for a few.

Federation has extricate its consent for the installation of modems for all those, who themselves have not installed. The installation now will be done by DNHPDCL and cost will be recovered through ensuing energy bills. You are aware that modems are now mandatory for all HT consumers.
