**R. S. Surana**  
Vice President

Dear Sir,

We all are aware about the unprecedented flood in the state of Kerala in monsoon. It was unprecedented for last hundred years. So far more than 300 precious lives have been lost, more than 2000 homes have been destroyed, about 12 lakh people has been shifted to relief camps, more than 1 million people have been displaced. Total loss is being estimated toady Rs. 20,000/- + Cr.

**Narendra Trivedi**  
General Secretary

Crises are always bad, they are unfortunate and they leave people in distress. It is time to show our solidarity and brotherhood. Whole Nation has stood up with our brothers and sisters in Kerala and extending all possible help. Looking to the size of devastation, every help will be short of the requirement.

Industries in the Union Territory of Dadra and Nagar Haveli, in past have always stood up for the victims of such disaster. This time also, we are full of determination to do our best.

At Federation, it has been decided to motivate industries to donate in Chief Minister's Distress Relief Fund

**Ajit Yadav**  
President

In addition, industries have donated in cash and in kind through various other agencies. In order to keep a track and total donation of industries of DNH for this cause, it is necessary to coordinate.

Thus, Federation appeals industries to donate generously to the cause by depositing cheque, or through NEFT/RTGS as shown in the following link:

<https://donation.cmdrf.kerala.gov.in>

**R. S. Surana**  
Vice President

Donation in Kind will also be accepted at Federation at Danudhyog Sahakari Sangh. Please ensure that no used items will be accepted.

Industries, who have already donated in kind, in cash, please inform your respective Association in following format:-

Name of Organization :

Donation in kind :

Donation in INR :

Agency through which it was made :

Please specify if your corp. office has done for various units including unit in DNH.

Federation appeals all industrial units to come forward and donate at least at following scale:
