Silvassa Industries & Manufacturers Association

INTRODUCTION

The association registered and functioning in UT of Dadra & Nagar Haveli to address the problems and hardship of industries in general and MSMEs in particular.

We believe in solidarity, fellowship and welfare of industries.

Even before inception of SIMA, there were other industrial associations in existence but due to conflict of interest among various sectors of industries, an association was needed to protect and stand for the interest of MSMEs.

Fortunately we were having the most experienced industrial leadership of Dadra & Nagar Haveli with them, as flag bearer the industrial movement of our UT started during 1980. Those industrial leaders were instrumental from 1980 to organize industries of Dadra & Nagar Haveli and to stand with every hardship of industries.

Accordingly, our association was established on 11.11.11 to stand for isolated segment of industries and within a period of five years it became voice of the segment, over which all other segments are listening and acting.

*There is a say that "A friend in need is a friend indeed" and our association has once again proved that this say is absolutely right by standing with every industries whenever they are in need of someone to stand for them. This is the reason why we are loved and cared by industries which also reflects with our bottom line i.e. **We Hear All & Troubleshoot the Problems***

SIMA in Media

Memorable Moments

“

”

“We have completed initial journey with our team efforts and overwhelming support of industries of Dadra & Nagar Haveli. We still need solidarity and dedication of our team, members and industries to accomplish the unfinished agendas to protect interest of industries, formulation of industrial friendly policies, implementation of various policies/schemes of Government of India in its true letter and spirit, which will help us to make our territory as most developed industrial territory to ensure economic growth of people of Dadra & Nagar Haveli.”

.... Chandrakant M Parekh....

A Long Way to Go
