### **Organize Training Programme on "Ayurvedic to Allopathic, Balancing of HR" By Dr. Kedar Shukla**

Whenever I travel and meet young HR executives (Why HR only, all business functions executives !), their common problem is; there are few concepts of Management practices are really good and they produce result !..but many of them gives results after long term (Is it really like that or not? - Matter of Debate and Discussion!)

On the other side executives feel that, they are given everything and anything to complete the task except "TIME". Ayurvedic medicines won't work! We need allopathic medicines or may be surgery! - We need results without time...(Is that really sounding like your own life???)

If you really believe that there are difficulties in this balancing between these two extremes, let's put our hands together, debate - discuss and try to find solutions on our own. This workshop will be all about learning 'Balancing' from self, colleagues and peers together !

#### **Objectives:**

- 1.PPE will focus on developing self and understanding your personal management style and how this impacts the performance of others.
- 2.Managing your interpersonal relationship.
- 3.Prioritizing on our task and taking decisions.

**Major Topic Covered: Interpersonal Effectiveness, Decision Making**
