

Warehouse Watch

"Safe Operations. Everytime!"

Warehouse Safety Awareness Program

8 June 2018 | Fortune Park Galaxy, G.I.D.C, Vapi

A warehouse plays a key and integral part in the success of an organization's supply chain. An efficient warehouse operation, go a long way in meeting organization's clients need. With increasing transactions and reducing response times, maintaining warehouse operations with highest degree of orderliness has emerged as a necessity. Highest productivity levels are achievable when you have completely safe operations. How do you ensure that your operations are totally safe?

CII in collaboration with Godrej, invites you to an event on Warehouse Safety.

The highlights of the program are:

- Introduction to Warehouse Safety
- How to identify & mitigate safety risk in the Warehouse Systems & Operations
- How to plan for Safe Operations
- How can Automation help Improve Safety
